

Water Security Agency Water and Wastewater Operator Certification Program

Continuing Education Unit Evaluation and Credit

Saskatchewan Water Security Agency Water and Wastewater Operator Certification Program

Guidelines for Continuing Education Unit and Course Evaluation

Background

Certification is based on *The Environmental Management and Protection Act, 2010* (EMPA) that was enacted on June 1, 2015. Section 98(1) Items (u) to (y) of this Act provides, in part, that the Lieutenant Governor in Council may make regulations respecting training and qualification of operators of the waterworks and sewage works. The Waterworks and Sewage Works Regulations, states in Section 62 that all owners of a municipal waterworks or wastewater works **are required** to ensure the responsibility for the overall day-to-day operation of the works be placed with an operator(s) holding the appropriate certificate(s).

The Environmental and Municipal Management Division of the Water Security Agency (WSA) administers the Water and Wastewater Operators Certification Program for the province. The WSA is a member of the Association of Boards of Certification (ABC), and follow their model for certifying Water and Wastewater Operators.

One of the requirements for higher levels of certification is formal post-secondary education. A need for a Continuing Education Unit (CEU) to enable operators, without post-secondary education, to achieve an equivalent education level was needed. The CEU system in use by the WSA is recognized and adopted from the ABC model and the International Association for Continuing Education and Training (IACET).

The Continuing Education Unit (CEU)

By definition, one Continuing Education Unit equals ten contact hours of participation in organized continuing education/training experience under responsible, qualified direction and instruction as approved by the certification authority.

Forty-five (45) CEU is equivalent to 1 grade of high school level achievement or 1 year of post-secondary education.

Course relevance is determined on a case-by case- basis by the WSA Operator Certification Program. Some exceptions are given to courses reviewed by other certification authorities such as AWWA, ABC, Manitoba Water and Wastewater Facility Operators Certification Program, Alberta Environment Water and Wastewater Operator Certification Advisory Committee, etc.

Post-Secondary Education

The Saskatchewan Water and Wastewater Works operator Certification Standards, 2012, require either 2 years of post-secondary education for Level III certification or 4 years of post-secondary education for Level IV certification. Substitutions of applicable approved experience or CEU are permitted.

Post-secondary education is defined as a one, two, three or four year program at a recognized institution that results in a diploma, certificate or degree. The program must be shown to be relevant to the water and wastewater operations industry. This means that it must be science/math based rather than arts/humanities based.

Course relevance and partial degrees, diplomas or certificates is determined on a case-by case- basis by the WSA Operator Certification Program. The maximum post-secondary education credit that can be applied to the certification program is four years.

Educational Course Assessment for the Operator Certification Program

Equivalent Time Calculation

For the purpose of calculating time allocation, one year of post high school is equal to 30 credit hours of university courses based on five classes each of three credit hours per semester over two semesters; 1,200 hours of course content from a technical school; 45 CEU's of training in an appropriate field; or completion of a full year of course content in an appropriate field of study as defined below.

Appropriate Field of Studies - Completed Degrees and Diplomas

For the purpose of completed degrees and diplomas a DACUM will be used to assess the acceptability of the program. The DACUM establishes the minimum course content requirements to meet the training needs of an operator. The DACUM for water and wastewater operators requires that any degree or diploma include the minimum of:

- courses in mathematics or physics;
- courses in environmental studies, water/wastewater or related fields; courses in a natural science (Biology, Chemistry); and
- courses in administration or management.

In general, the following areas of study are appropriate as post-secondary educational fields:

- a Bachelor Degree in Science, Medicine or Engineering resulting in a B.Sc, B.A.Sc or B. Eng. This includes Agriculture, Biology, Laboratory Studies and Chemistry degrees; and
- a diploma in the field of Applied Science and Technology, Laboratory Studies, Medical Studies or Engineering Technology.

If a degree or diploma does not meet the minimum DACUM requirements, the applicant will be advised of the missing component(s) and be required to supplement their education by attending CEU accredited courses or by other educational means. The Certification Board will review and assess non-traditional educational programs not addressed by this policy as required. The assessment will be based on a common understanding of educational requirements needed for an operator to perform their duties.

Education and Training

Education and training can be broken into several separate categories:

1. High school diploma, high school equivalency diploma or GED, as well as "Adult Upgrading" are NOT eligible for CEU assignment.
2. Formal post-secondary programs (certificate, diploma, degree)
3. Formal related water and wastewater training on specific topics or for preparation for certification exams – eligible for CEU assignment.
4. On-the-job training is NOT eligible for CEU assignment.
5. In-house training MAY be approved for CEU
6. Continuing education courses or events that do qualify for CEU.

Courses Considered for CEU

Any course that meets the definition of CEU, and that can be referenced to a recognized need-to-know, will be assigned CEU. This includes classroom courses, seminars, conferences or workshops. It also includes courses that are offered by correspondence or on-line. CEU for correspondence or on-line courses will be determined by assessing the amount of time it would take to deliver the material if it were to be delivered in a classroom setting, not the amount of time it actually takes to complete.

The following is a partial list of trainings/courses that are recognized by the Certification Program. If you have taken training that is not listed here and you think that it is relevant, you may submit a course outline/description to the Certification Coordinator for review. The list will be updated regularly as new courses are submitted for assessment.

CEU Listing

The Water Security Agency will be maintaining a list of courses that have been assigned CEU's. The list will be divided into two parts, the first will list those courses that are continuously available or are available on a regular basis and the second will be those courses that were one-time offerings and are no longer available.

CEU's will not be given for duplicate training. (i.e. an operator will not receive CEU credit for repeating the same course).

If you have taken training and it is not listed on the approved list, and you think it is relevant, you may submit a CEU Evaluation Form to the Operator Certification Board. The form can be found at <https://saskocb.ca/wp-content/uploads/CEU-Evaluation-Form-June-10-2020.pdf>

The available training listed may or may not be current. Please contact the training provider directly for more information on specific courses.

One Time CEU Approved Training

No Longer Available

Alberta Water & Wastewater Operators Association (AWWOA) <http://www.awwoa.ab.ca/>

• Process Control Instrumentation Basics	Dec 10-11, 2013	1.2
--	-----------------	-----

American Public Works Association (APWA) <http://www.apwa.net/>

• APWA Conference 2011 – Denver Colorado	Sep 18-21, 2011	0.8
--	-----------------	-----

Associated Engineering <http://www.ae.ca/>

• Water & Wastewater Capacity Building Seminar – Toronto	Nov 1-3, 2012	1.0
• Northern Communities Water Treatment Seminar	Sept 2, 2015	0.3
• Confined Space Rescue Level 2		0.7
• Ground Disturbance 201 ABCGA Endorsed		0.8

Brenntag Canada Inc.

• Chlorine Safety Awareness Seminar, Buffalo Pound WTP	Aug 22, 2012	0.3
--	--------------	-----

California State University – Sacramento (CalState) <http://www.owp.csus.edu/>

• Utility Management	Pre 2003	4.5
----------------------	----------	-----

Canada Safety Council (CSC)

• ATV Training Course – Moose Mountain Provincial Park	Oct 7, 2013	0.5
• Utility Vehicle Training Course – Moose Mountain Provincial Park	Oct 8, 2013	0.5
• Defensive Driving Course	May 22, 2015	0.3
• Utility Vehicle Training		0.5
• Snowmobile Operators Course		0.8

Canadian Water and Wastewater Association (CWWA) – NWWC

• CWWA – NWWC	Oct 25-28, 2015	1.5
---------------	-----------------	-----

Circuit Rider Trainers Professional Association <http://www.crtpa.com/>

• Disinfection Alternatives, Montreal	Sept 1, 2011	0.7
---------------------------------------	--------------	-----

City of Estevan

• Service Line Applications & Tapping Seminar (Don Webb)	Apr 25, 2013	0.7
--	--------------	-----

City of Lloydminster

• Crane Operations & Safety Training	March 2013	0.6
• Confined Space Pre-Entry, Entry and Basic Rescue	February 2014	0.6

City of Moose Jaw

• City of Moose Jaw Safe Trenching and Excavating	May 2017	0.4
---	----------	-----

City of North Battleford

• Management and Supervision (AWWOA)	Nov 17-19, 2014	2.0
• Water Quality Sampler Orientation (AWWOA)	Nov 17-18, 2014	1.0
• Process Control Instrumentation – Intermediate (AWWOA)	Feb 18-19, 2015	1.2
• Chlorination Workshop (AWWOA)	Apr 27-29, 2015	2.0
• OSSA Fall Protection	Mar 5, 2016	0.6
• UVSwift12 II Operator Training		0.4

City of Prince Albert <http://www.citypa.ca/>

• Water Distribution Class 1 – Optimize Consulting		1.1
• Wastewater Collection Class 1 – Optimize Consulting	Jun 21-24, 2010	1.1
• Water Distribution Class 2 – Optimize Consulting		1.1
• Water Treatment Class 4 – Optimize Consulting	Jan 27-28, 2011	1.6
• Wastewater Treatment Class 4 – Optimize Consulting	Dec 6-9, 2010	3.2
• Wastewater Treatment Class 3 – Optimize Consulting		3.2
• Wastewater Collection Class 1-3 Optimize Consulting	Dec 14-15, 2011	1.2
• Supervision for Safety	Feb 25 Mar 4, 18, 2014	0.7
• AWI Filter Surveillance Workshop	Feb 27, 2014	0.6
• Powered Mobile Equipment	May 6-7, 2014	1.4
• Fireman Certificate Course & Provincial Exam,		1.4
• Standard First Aid, CPR C, AED (Lifesaving Society)	Nov 4-5, 2014	1.6
• Actiflo Clarification Operation, Maintenance & Optimization Workshop (Veolia Water Solutions & Technologies Canada)	March 2015	0.6

City of Regina www.regina.ca

• Biological Nutrient Removal for Operators	Apr 26-27, 2012	1.2
• Fleet Training & Safety–Confined Space Training Entry & Rescue	2016	0.7
• Fleet Training & Safety – Overhead Crane	2016	0.7
• Fleet Training & Safety – Truck Mounted Crane	2016	0.6
• Fleet Training & Safety – Traffic Accommodation/Traffic Flagging	2016	0.4
• Fleet Training & Safety – Trailer Towing & Cargo Securement	2016	0.6
• Fleet Training & Safety – Fall Protection	2016	0.7

City of Saskatoon www.saskatoon.ca/

• UV Disinfection Training Workshop, Ozonia	November 2009	0.4
• Traveling Water Screen Training Workshop, Siemens	June 16, 2010	0.3
• Troubleshooting of Centrifugal Pumps, Vaughan Company Inc.	June 9, 2010	0.4
• Arc Flash & Low Voltage Training	Sept 15-17, 2009	0.8
• Chlorine Gas Feed Equipment – Siemens Water Technologies	Nov 2-3, 2011	1.1
• Operator HMI Training – Hinz	July 16, 2012	0.3
• EIM Tec2000, Spartan Controls	Dec 12, 2012	0.7

City of Swift Current

• Actiflo Training, John Meunier	Oct 25-26, 2011	1.0
----------------------------------	-----------------	-----

ClearTech Industries Inc. <http://www.cleartech.ca/index.php>

• Safe Handling of Chlorine Gas, Maple Creek	July 6, 2011	0.6
--	--------------	-----

CSA / NASSCO (Garret Harvey)

• Visual Inspection of Sewer Pipe – CSA Plus 4012 with NASSCO PACP	March 2013	1.2
--	------------	-----

Cumberland College www.cumberlandcollege.sk.ca

• Lagoon O & M, Nipawin	Oct 18, 2006	0.5

SANC: Sask. Association of Norther Communities (New North Conference)

<https://www.newnorthsask.org>

• Water/Landfill Workshop, La Ronge	Apr 10-11, 2002	1.2
• Drinking Water, Wastewater & Solid Waste, La Ronge	Apr 1–3, 2003	0.9
• Northern Communities Water Works Workshop: La Ronge	Apr 21-23, 2004	1.0
SANC: Northern Environmental Workshop: La Ronge	Apr 6-8, 2005	0.3
• Basic Math Workshop		0.3
• Jar Testing Workshop		0.3

• Basic Chemistry Workshop		0.3
SANC: Water Works Workshop, La Ronge	Apr 5-7, 2006	
• Principles & Practices of Dr. Water Chlorination		0.3
• Basic Safety for Operators		0.3
• Distribution System O & M, AWWA Webcast		0.3
SANC: Water Works Workshop, La Ronge	Apr 07-09, 2007	
• UV Disinfection (Calgon)		0.6
• Watermain Swabbing (ATAP)		0.6
• Basic Slow Sand Filters (MS Filter)		0.3
• Membrane Filtration (Puretech)		0.3
• Portable & On-line Instrument Calibration (ClearTech)		0.3
SANC: New North Water Workshop	Apr 18-19, 2008	
• Iron and Manganese Removal		0.6
• Lagoon Operations		0.6
• Chemical Pump Maintenance – Clear Tech		0.4
• Water & Wastewater Worker Safety – ATAP		0.4
SANC: Northern Water Conference	Apr 27-29, 2009	
• Principles & Practices of Chlorination / Chloramination, Cleartech		0.3
• From Sampling to Report – SRC		0.3
• Jar Testing, ATAP		0.7
• Distribution System Maintenance and Leak Detection, Al Turner		0.7
SANC: Northern Water Conference	Apr 14-16, 2010	
• Hypochlorination, ATAP		0.7
• Disinfection Alternatives, Metcon		0.7
• Filter and Instrumentation Optimization, ClearTech		0.3
• MOE Regulations and Operator Duties, SMOE		0.3
SANC: Northern Water Conference	Apr 18-20, 2011	
• MOE Regulations and Operator Duties, SMOE		0.3
• Greensand Filters – S, Dobrowny		0.3
• Lagoon Operation & Maintenance – ATAP		0.7
• Chemical Pump Maintenance & Calibration – ClearTech		0.4
• Chlorination, ClearTech		0.4
SANC: Northern Water Conference	Apr 17-19, 2013	
• Metering Pumps, APH		0.3
• Drinking Water: Basic Water Analysis (Randy Hanson)		0.4
• Wastewater Collection Maintenance (ATAP)		0.6
SANC: Northern Water Conference	April 2014	
• From Sampling to Report – SRC		0.3
• Standard Operating Procedures, Contingency Plans & Emergency Planning – ATAP		0.6
• Microbial Maintenance – Enviroway		0.3
SANC: Northern Water Conference	Apr 22-23, 2015	
2015 New North Waterworks Workshop CEU (an operator may only receive either individual workshop CEU's or the overall conference CEU, not a combination of both.)		1.0
• Maintenance for Submersible Pumps and Station Automation Systems – Xylem		0.3
• Jar Testing – Delco Water (Kelly Franks)		0.3
• Potable Water Reservoir Design, Operation & Maintenance		0.6
SANC: New North Water Conference	Apr 27- 28, 2016	
2016 New North Waterworks Workshop CEU (an operator may only receive either individual workshop CEU's or the overall conference CEU, not a combination of both.)		1.0
• Water & Wastewater Operator Math Course		0.3
• Water & Wastewater Operator Safety Course		0.3
• Water Disinfection Techniques		0.6
SANC: New North Water Conference	Apr 11-12, 2017	

2017 New North Waterworks Workshop CEU (an operator may only receive either individual workshop CEU's or the overall conference CEU, not a combination of both.)		1.0
• Water Works & Sewage Works Permittee Responsibilities		0.3
• Control Systems Troubleshooting		0.4
• Responsibilities of Municipal Authorities for Water/Sewage Works		0.3
SANC: New North Water Conference	Apr 17-18, 2018	
2017 New North Waterworks Workshop CEU (an operator may only receive either individual workshop CEU's or the overall conference CEU, not a combination of both.)		1.0
SANC: New North Water Conference	Apr 10-11, 2019	1.0
