

Job Title: Asset Management & Reliability Engineer
Competition #: SW-08-2025
Location: Moose Jaw, Regina or Saskatoon
Salary: \$7,288 to \$9,475 per month (ML5)

Immerse yourself in a team committed to creating trusted and sustainable water solutions for a vibrant Saskatchewan. A team backed by a corporation with over 60 years of experience providing water and wastewater services. That's a lot of knowledge.

But there's more. SaskWater offers an attractive benefits package including employer-funded health, dental and vision benefits, pension, and disability insurance, plus vacation leave, earned days off, and paid family leave and sick leave. At SaskWater you can take advantage of extras such as flexible work options, a tuition reimbursement program, employee family assistance plans, maternity leave top-up and more. H2Wh0a!!

Now that's refreshing! Apply today.

As the Asset Management & Reliability Engineer you will support SaskWater's strategic initiatives by optimizing asset management practices, enhancing equipment reliability, minimizing risks, analyzing data, and improving equipment maintenance strategies. Focuses on asset lifecycle management and the continuous optimization and utilization of the Enterprise Asset Management System (HxGN EAM).

To qualify, you will have:

- Degree in Engineering (Mechanical, Geomatics or related field).
- Professional Engineer status (P.Eng.) or Professional Licensee status (P. Licensee).
- Valid Class 5 Driver's License

In addition to the above qualifications, the job requires 5-7 years of progressively more responsible experience in the following areas:

- Asset Management best practices and application in either a municipal or industrial setting.
- Strong working knowledge of HxGN EAM or similar Enterprise Asset Management systems.
- Proficiency in reliability engineering tools and methodologies (RCM, FMEA, RCFA) and knowledge of maintenance management.
- Knowledge of databases (SQL), Data Analytics, and Business Intelligence dashboards is considered an asset.
- Experience in supporting asset management and reliability program development and implementation.
- Familiarity with ISO 55000 Asset Management Standards is an asset.
- Exposure to ISO 14000 and ISO 31000 around environmental and risk management.
- Excellent analytical, problem-solving, and planning skills.
- Strong communication, facilitation, organizational, and interpersonal skills.
- Ability to work collaboratively in a team environment.

Special Requirements: *The position requires the incumbent to undergo a Criminal Record Check and Drug and Alcohol test. You must be legally entitled to work in Canada. A valid Saskatchewan driver's license is required.*
