

Job Title: Technologist 2, Regional Systems
Competition #: SW-26-2024
Location: Moose Jaw
Salary: \$31.23 to \$339.05 (Pay Grade 7)

Immerse yourself in a team committed to creating trusted and sustainable water solutions for a vibrant Saskatchewan. A team backed by a corporation with over 60 years of experience providing water and wastewater services. That's a lot of knowledge.

But there's more. SaskWater offers an attractive benefits package including employer-funded health, dental and vision benefits, pension, and disability insurance, plus vacation leave, earned days off, and paid family leave and sick leave. At SaskWater you can take advantage of extras such as flexible work options, a tuition reimbursement program, employee family assistance plans, maternity leave top-up and more. H2Wh0a!!

Now that's refreshing! Apply today.

As the Technologist 2, Regional Systems, you will perform operation and maintenance work, laboratory and field testing, meter reading and prepare required operational, maintenance, regulatory and status reports within an assigned regional water and wastewater system. The regional water and wastewater system may include SaskWater or customer owned water treatment, wastewater treatment, water distribution/transmission and wastewater collection systems.

To qualify, you will have a two-year technical diploma; a Water Resources Engineering Technology diploma is preferred. Eligibility for certification as an Applied Science Technologist (A.Sc.T.) or Certified Technician (C.Tech) is required. A Valid Class 5 Driver's License is required.

Certification at the appropriate levels in Water Treatment, Water Distribution, Wastewater Collection and Wastewater Treatment is required to be obtained in accordance with the Operator Certification Board requirements or existing industry reciprocity agreements.

In addition to the above qualifications, the job requires 1.5 years of experience in the following areas:

- Working knowledge of water treatment, water distribution, wastewater collection and wastewater treatment operation, maintenance and troubleshooting processes and procedures.
