

The City of Yorkton is looking for a driven, motivated individual who is willing to grow amongst our team, and reinforce our values. As a Water and Wastewater Treatment Operator with the City of Yorkton you'll join a collaborative team ensuring quality water is delivered to the community, and clean, treated wastewater is returned to the local environment. You'll contribute to the success of our operation by performing preventative maintenance, quality assurance, and providing effective solutions to challenging scenarios. Reporting to the Waterworks Managers; you'll find yourself engaged in dynamic environments allowing for a multitude of learning opportunities indoors and out.

Duties & Responsibilities

- Responsible for the frontline control of various treatment processes. This includes, but is not limited to; sample collection, testing, and data interpretation along with the monitoring, analysis, and quality assurance of water, wastewater, and other process streams.
- Responsible for maintaining the Water Treatment Plant, Wastewater Treatment Plant, and associated appurtenances. This includes, but is not limited to; pump, blower, and motor servicing, equipment calibration, and tank entry, cleaning, and servicing.
- Responsible for the collection, interpretation, and keeping of various types of records and data.
- The successful candidate must be comfortable working non-standard hours. This includes, but is not limited to; rotational weekends, evening and overnight standby, and emergency call-out response.

Experience

- Experience in the fields of Water and Wastewater Treatment is considered an asset.
- Experience relating to power engineering and boiler operation is considered an asset.
- Experience with computers and various software packages including; but, not limited to Microsoft Office and SCADA software.
- Consideration may be given toward qualified experience in a relevant trade or industry. These would include; but are not limited to; engineering, mining, plumbing, electrical, mechanical, gas fitting, etc.
- Preference will be given to candidates who possess certification in the fields of Water and Wastewater Treatment.

Qualifications

Uncertified Operator: - \$23.63

- Minimum of Grade 12 or Equivalency as determined by Saskatchewan Ministry of Education.
 - A diploma in Civil Engineering, Water Science Technology, or equivalent is preferred. Consideration may be given toward science, technology, or technician programs of a similar nature.
